SUMMARY

AI & Data Science undergraduate at Galgotias University with hands-on experience across full-stack development, applied machine learning, and multi-agent AI systems. Currently interning as a Full-Stack Developer at MSKard Business Solutions. Builds production-facing systems — from a live client platform to an adaptive multi-agent voice-interview architecture — while transitioning into ML/AI engineering roles.

SKILLS

Programming Languages: Java, Python, C, C++, TypeScript, SQL
ML & Computer Vision: OpenCV, FaceNet, LBPH, Scikit-learn
Web & Frontend: React, Next.js, HTML, CSS, Tailwind CSS
Backend & Databases: Node.js, Express.js, FastAPI, Prisma, PostgreSQL, MySQL, Redis
AI, Multi-Agent & Real-Time: Gemini API, Claude AI, LangGraph, WebSocket, Agora, Firecrawl
Coursework: DSA, Computer Vision, DBMS, OOP, Probability & Statistics, Operating Systems, Linear Algebra
Tools & Platforms: Git, GitHub, Maven, Firebase
Soft Skills: Teamwork, Communication, Leadership, Adaptability

EDUCATION

B.Tech in Artificial Intelligence & Data Science *CGPA: 8.89 | 2024 – 2028*
Galgotias University, Greater Noida

Class X & XII
Children's Academy Class X: 90%(2021) | Class XII: 78%(2023)

INTERNSHIP

Full-Stack Developer Intern *May 2025 – Present*
MSKard Business Solutions

- Building, scaling and maintain a full-stack e-commerce platform using Next.js, Node.js/Express, and PostgreSQL with TypeScript.
- Developing responsive UI with Tailwind CSS and contributing to backend API design and database schema.

PROJECTS

PROBE — Adaptive Multi-Agent Voice Interview Platform *Hackathon Project*

Tech Stack: Next.js, Gemini API, WebSocket, Agora (STT), ElevenLabs/Cartesia (TTS), PostgreSQL, Redis

- Proposed and architected an adaptive multi-agent voice interview platform where AI interviewers across technical, product, and hiring-manager personas conduct real-time, interruptible interviews for the Agora hackathon track.
- Designed a three-layer interview intelligence system — a dynamic Competency Graph, a multi-agent Interviewer Debate engine, and a Counterfactual Interviewing module — to evaluate genuine understanding over memorized answers.
- Architected the real-time orchestration layer (session manager, turn-taking controller, interview state machine, agent router) and the voice pipeline (Agora STT, ElevenLabs/Cartesia TTS), with state persisted across PostgreSQL, Redis, and a vector store.

Shree Krishna Transport — Client Website *Live*

Tech Stack: Vite, React, TypeScript, Tailwind CSS

- Delivered a live production website (shree-krishna-transport.org) for a transport-matchmaking business connecting businesses in need of transport with transporters, built with Vite, React, TypeScript, and Tailwind CSS.
- Integrated the WhatsApp Cloud API for direct lead capture and executed a Google Business Profile setup and SEO strategy end-to-end, within real business constraints — honest-copy requirements and a manual-first operating model.

ElectIQ — AI-Powered Civic Education Platform

Tech Stack: React 19, Vite, Firebase, Gemini API, Tailwind CSS, GitHub Actions

- Built a SaaS civic education platform covering electoral processes for 6 countries (India, USA, UK, Australia, Germany, Canada), with a Gemini AI assistant, voice synthesis, and rate-limited endpoints; achieved a 78% accessibility rating.
- Secured the backend with Firebase Functions, locked Firestore security rules, and CSP enforcement, with CI/CD via GitHub Actions, Vitest, and Playwright tests.

LEADERSHIP

Treasurer — IEEE Computational Intelligence Society (CIS)

- Coordinated and conducted the Salesforce Agentic AI Workshop for students and the technical community.
- Contributed to organizing the International Conference on Computing, Communication and Automation (ICCCA); managed event planning, speaker coordination, and execution logistics.

Technical Lead — Quanta Club

- Building the technical structure and website for the club's original site and the events conducted.

CERTIFICATIONS

Quantium: **Data Analytics** — 2024
JPMorgan Chase: **Software Engineering Virtual Experience** — 2024

ACHIEVEMENTS

- Maths Bronze Olympiad medallist (International).
